3 Read the text and answer the questions.

**Lions and tigers**

Lions and tigers are both big cats. Lions live on grassy plains in Africa. Male lions have got a large furry mane around their head. Tigers live in Asia and they've got black stripes on their bodies so they can't be seen in between the trees.

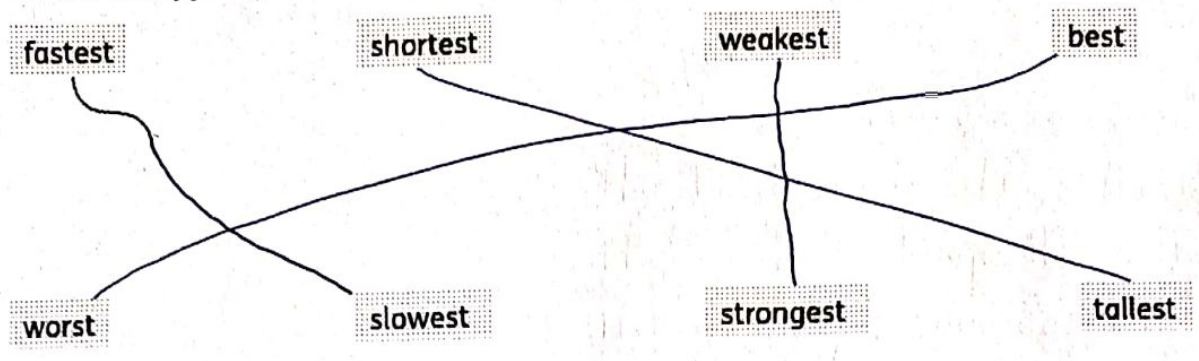

Lions are faster than tigers. They can run at nearly 80 km per hour, but tigers only run at 65 km per hour. Tigers are better at swimming than lions. They often swim across rivers and swim to hunt other animals. Lions can swim but they don't do it very often.

Which is bigger? Tigers are longer and heavier but lions and tigers are usually about the same height. Tigers are heavier because they've got bigger muscles. An adult male tiger can weigh 420 kg.

- 1 Which is longer? The tiger is longer than the lion.
- 2 Which is heavier? The tiger is heavier than the lion.
- 3 Which is faster? The lion is faster than the tiger.
- 4 Which is better at swimming? The tiger is better at swimming than the lion.
