To finish, I would finally say that I really wanted to travel and get to know this country and although I still have many things pending, I will try to return in the future to get to know them.

I really liked living this week in Dublin, getting to know mythical places and also the customs of its people.

Regarding the learning in the course, I have noticed improvement in all areas and I have seen that perhaps I knew more than I thought, but I have also realized my shortcomings and that is also very positive to be able to work on improving them. I really liked meeting and interacting with other people from different countries and learning more about their cultures, so my final opinion is very positive and I thank the organization and my school for the opportunity to live this experience that I hope I won't be the last.
