

Name _____

1 Read and match.

Gold and its uses

People can find gold all over the world but most of it comes from South Africa, Australia, Russia, Canada and the USA.

- 1 Gold is very attractive and decorative, so people use it in jewellery. People also use it to make watches.
- 2 Gold is reflective so we use it in engines in aeroplanes and space ships to protect them from the heat.
- 3 Dentists sometimes use gold to repair or replace broken teeth.
- 4 People use small flakes of gold to decorate cakes. They put the flakes on the cakes and then people eat them.
- 5 The first gold coin was made thousands of years ago. People still use gold to make some coins.

2 Read and circle *True* or *False*.

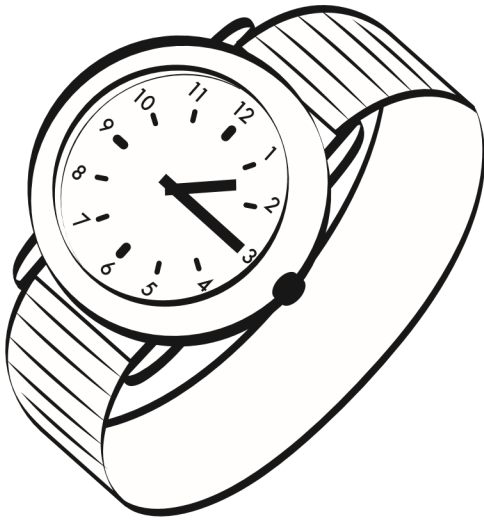

- | | | |
|---|------|-------|
| 1 You can find gold in Australia. | True | False |
| 2 People use gold to make watches. | True | False |
| 3 Gold protects space ships from the cold. | True | False |
| 4 Dentists use gold to repair teeth. | True | False |
| 5 Some people eat small pieces of gold. | True | False |
