

EUROPEAN PROJECT “FROG: FOLLOWING THE ROUTES OF GREENESS”

The Escola Oficial de Idiomas de Ferrol is participating in a new Grundtvig partnership within the lifelong learning program. These are the details of the partnership:

Participants

1. Escola Oficial de idiomas de Ferrol – Galicia (Spain)
2. Zawoko NET s.r.o.- Praga (Czech Republic)
3. Centres of English Language Learning “ATHENA” – Karditsa (Greece)
4. Università delle LiberEta' del FVG – Udine (Italy)
5. Kelmės anglų kalbos klubas "ABC" – Kelme (Lithuania)
6. Quarter Mediation- Assen (The Netherlands)
7. Özel Okul Öncesi Eğitim Kurumları Derneği – Konya (Turquía)

Topics

1. Environment and sustainable development
2. Methodology and didactics
3. European Citizenship

Duration

From September, 2012 to August 2014

Aims of the partnership

- To foster awareness of the importance of our environment
- To contribute to a more sustainable world
- To compare and contrast the environmental attitudes in the different countries
- To elaborate didactic multimedia material on the topic
- To promote the use of new technologies for adults and older learners
- To improve language skills
- To stimulate creativity
- To promote equal opportunities regardless of age, gender, disability or race

This partnership challenges the participating organizations to build up the awareness of the need of a sustainable environmental adult education.

This project intends to actively involve adult learners and staff to develop a sense of responsibility towards environment through a number of practical indoor and outdoor activities.

The selected topics reflect the learners interests and include nature, pollution, recycling,... Furthermore, they will have the opportunity to improve their ICT and foreign languages skills through using new technologies and communicating with the participants in the project.

Results and outcomes (along the two years):

- Project website
- Project logo
- Photo exhibition in the website
- Collection of good practice examples regarding training methods in environmental education
- Video recordings of the project activities including the training sessions
- Training course for adults to be promoted at EU level: Innovative and creative training methods on sustainability
- Interactive multimedia tool
- Posters, stickers and other dissemination materials
- Photo exhibition in the final conference

Actividades

All the planned activities in the different countries for the two years are aimed to the achievement of the objectives, expected results and relevant products and they are all included in the year school program.

This will include common activities such as conferences, organizing and taking part in training sessions, and local activities, such as research on the topic, walking tours with a critical eye, visiting eco parks, windmills, contacting organizations and authorities responsible for environmental issues.

International meetings:

- Assen, Netherlands: October, 2012
- Prague, Czech Republic: March, 2013
- Udine, Italy: July, 2013
- Konya, Turkey: October, 2013
- Karditsa, Greece: January, 2014
- Kelme, Lithuania: March, 2014
- Ferrol, Galicia: June, 2014
