XUNTA
DE GALICIA

The background of the entire page is a photograph of an outdoor street scene. It features lush green trees, a clear blue sky with some white clouds, and a stone wall in the foreground. A person in a red coat is visible walking on the sidewalk. The text is overlaid on white rectangular boxes.

The Escola Oficial de Idiomas de Santiago de Compostela is a public school dedicated to the teaching of national and foreign languages.

The school is run under the auspices of the regional government's Department of Education.

MISSION

Our goal is to provide our adult students with the tools they need to use the languages they learn in an authentic and effective way, and to enable them to certify their acquired linguistic competence through our proficiency exams, recognized officially in all of Spain by governments, universities, and employers. Our teaching aims to contribute to the recognition of and respect for cultural diversity by promoting a plurilingual society through life-long learning.

XUNTA
DE GALICIA

Public language schools (EOI) in Spain provide:

- » Affordable, specialized teaching of both national and foreign languages
- » A dedicated, expert teaching staff that participates extensively in ongoing professional development
- » Curriculums and levels that align with the Common European Framework of Reference for Languages (CEFR)
- » A cutting-edge, engaging and effective methodology with an emphasis on developing authentic communication skills
- » Certification exams for students and external candidates which award nationally recognized certificates of proficiency at the A2, B2 and C1 levels for the different foreign languages that are taught at the school
- » Participation in cultural activities and international programs such as Erasmus+

LANGUAGE LEARNING FOR EVERYONE

The system of public schools of languages in Spain (EOI) is an institution with over 100 years of service. Our long heritage of excellence, combined with our innovative use of IT and social learning platforms, attracts adults of all ages and from all walks of life. This combines with our broad range of cultural activities to promote languages and language learning, and to foster teacher and student participation in international programs.

INTERNATIONAL SCOPE

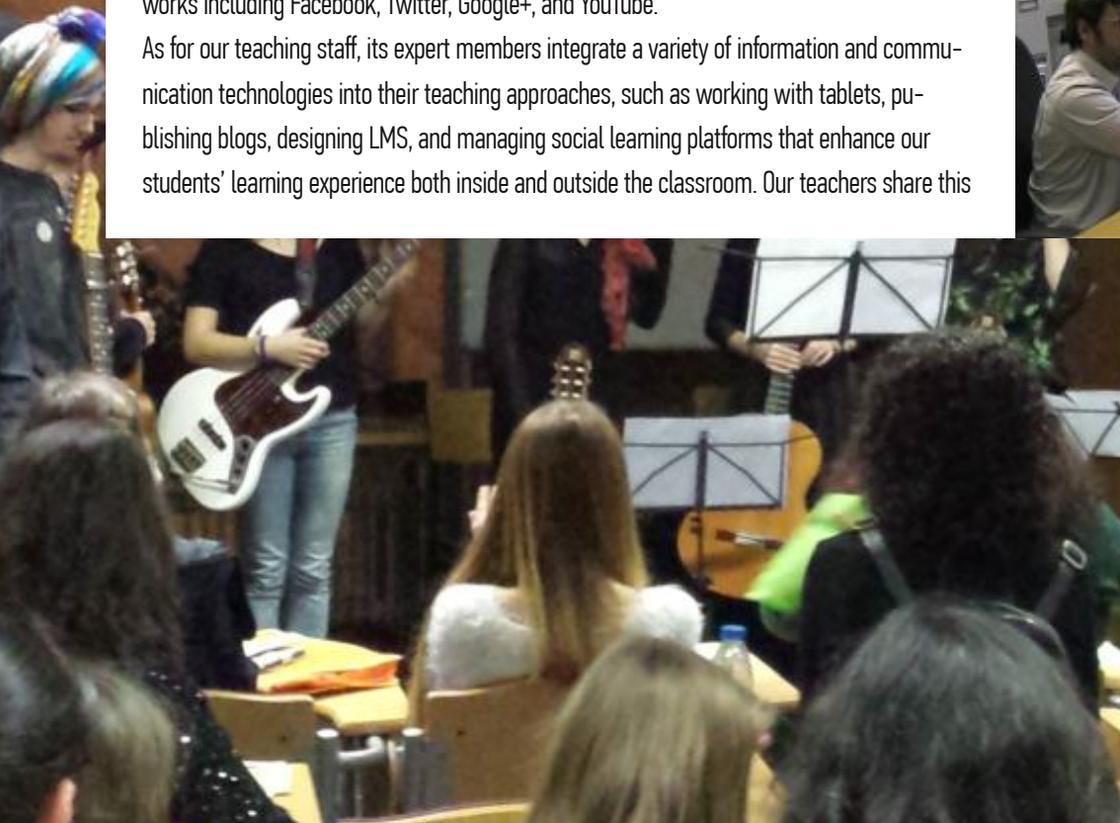

Our school has a broad background in international educational programs that provide the opportunity for both teachers and students to share and improve their academic experience through exchanges with other countries.

TECHNOLOGY AND CULTURE

The EOI de Santiago shares updated information on its website and is present in social networks including Facebook, Twitter, Google+, and YouTube.

As for our teaching staff, its expert members integrate a variety of information and communication technologies into their teaching approaches, such as working with tablets, publishing blogs, designing LMS, and managing social learning platforms that enhance our students' learning experience both inside and outside the classroom. Our teachers share this

expertise with other professionals through conferences and workshops at national and international events.

But our educational offer also includes a space for downtime. To provide a more relaxed learning experience beyond the classroom, we organize a variety of cultural activities including study trips abroad.

COURSE CATALOGUE

In addition to the main school in Santiago (Vite), where we teach **English, French, Galician, Italian, Portuguese,** and **Spanish as a Foreign Language** (ELE/SFL), there are five satellite schools located in Negreira, Ordes, Ribeira, and Santiago (Sar), which offer classes in English, and Noia, where French is also available.

Besides our regular courses, we offer a range of **specific courses** in English and French as part of our region's professional development program for teachers of CLIL. We also provide specific courses in English and Galician for professionals in areas such as public administration or the media.

Finally, we offer preparatory courses for the CELGA (certification exams in Galician).
