

English visitors to IES Ames

Last week a group of English visitors came to our school, IES Ames. They told us about Oxford, a city of England that is characterized by its colleges and in the strange kind of buildings. There are a lot of villages and towns surrounded by big and green fields that look like Galician countryside.

They told us that summer is very hot there and as cold as here in winter. Ok, now we are going to talk about English visitors so let's get started with their hobbies:

Sophia loves skating and diving from high boards. It looks like she likes high-risk sports...

Emma is a runner for life, so she's very good at running. She finished a race in second place, not bad at all. But first of all she loves watching films.

Aimee is fond of scuba-diving, so she must know a lot of kinds of animals.

Emily loves tennis a lot. I wonder if someday she will play with me...

Isabelle... yeah, she's a very diverse person. She loves cooking, reading, watching movies, singing and playing piano. I think she will be a singer star.

Finally is **Davies**, a girl that loves sailing from 14:00 to 17:00 every Thursday. Also, she likes singing and reading, like Isabelle.

Concluding this news I have to say that it has been an honour to see you here, in Spain and hope you enjoyed yourselves. Good trip!!
