

PROGRAMA DE INMERSIÓN DE PROFESORES CLIL O DE ESPECIALIDAD DE INGLÉS EN CANADA

PIALE 2017

Hi everybody,

Once again, one teacher of The English Department of As Lagoas was chosen to attend courses and experience how the Educational System in Canada works.

Furthermore, it is my third time going to this wonderful country which has one of the best Educational systems in the world. To be in touch with both Canadian teachers and all the multicultural students, who share their daily life at school, has made me realise that we can do our best to become a great community and be able to connect with people from all around the world.

Learning foreigner languages inside their own countries and enjoying their culture and traditions is an awesome experience that all of us should have.

Thanks to A Xunta, PIALE programme lots of teachers, who teach English or any other subject in English can travel to Canada and live the immersion experience for four weeks. Living with a family and attending classes at Canadian Schools – from Kindergarten to High School – makes it possible our exchanging education issues with both Galician and Canadian teachers.

So just to let As Lagoas school community that these kinds of programs are very useful for all the members belonging to it, especially students.

Thanks for reading this piece of information.

M^a Amparo Vázquez Vivas.
