

Hello everyone!

This year, you learned about different parts of the house, and now it is time to make your own!

For this activity, you will make your “Dream House,” which the house that you most want to live in. This house can include anything you like, from a pool with a 5-story water slide to a theater room with a flat screen TV to a room which has a trampoline for the floor.

Steps:

1. Create your Dream House. You can draw or insert pictures.
2. Record yourself explaining the different parts of your Dream House in English
3. Send your completed Dream House and Recording to your teacher

Here is a sample Dream House. You can use this one or make your own!
