

Tutorial de slideshare

www.slideshare.net

- Slideshare, es como el "youtube" de las presentaciones online (powerpoint y openoffice)
- Es una aplicación de web 2.0 que permite publicar presentaciones y conformar comunidades
- Ya no necesitamos adjuntar los powerpoint. Directamente los subimos a la web y encontramos disponibles en un link

¿Cómo utilizar esta aplicación?

- 1- Abrir una cuenta en www.slideshare.net
- 2- Editar el Perfil
- 3- Adjuntar la presentación (clasificar según “etiquetas”)
- 4- Publicarla
- 5- Difundirla en un sitio web o blog
- 6- Seleccionar favoritos
- 7- Invitar amigos/as

PASOS A SEGUIR

The screenshot shows the Slideshare website interface. At the top, there is a navigation bar with the Slideshare logo, a search bar, and links for 'Home', 'My Slidespace', and 'Upload'. Below the navigation bar, the main content area is divided into several sections: 'Latest' featuring a 'Decision Making Process' diagram, 'Popular' featuring a 'Funny animals' video, 'Featured' with three featured slides, 'Latest comments' with user feedback, 'Hottags' with trending tags like 'eco' and '超越web2.0', and 'Popular tags' with tags like 'information science' and 'merida'. A 'Recent active users' section is also visible at the bottom right.
