

日本

Japan

Japan is a wonderful country! The weather is cloudy, but it doesn't matter. You shouldn't bring anything because Japanese have everything you may need! You should bring a lot of money because there are a lot of strange and weird things to buy! Here you can eat a lot of things: sweets, sushi and even dirt...

In Japan you should visit Tokyo, museums of anime and arcades... It is a very different place from here. It is a place to have fun and be happy. You must speak English or Japanese.

You're really going to enjoy it! Say: Moshi-Moshi Japan!
