

Micronesia

Welcome to Micronesia!

Looking for blue skies and sunny days...? Come to Micronesia, here you can go to the beach every day, go surfing, sunbathe, it's a hot country you can go to in summer. People that live here go to the beach all the year round. Since Micronesia is a group of islands, you can catch a ship to visit the seas of Micronesia, the animals and algae that live here. These islands were created a million years ago with a lot of volcanic eruptions. Here you have a lot of tropical food because Micronesia has similar food and characteristics to Hawaii.

In Micronesia you can also do different activities like kitesurfing, white water rafting...

Come to Micronesia and have fun!

Martiño Iglesias Campaña, Brais Aldrey López, Manuel Vieites Pérez and Ángela Coello Regueira. (2º ESO B)
