

SANTIAGO DE COMPOSTELA

Are you looking for fun and beautiful places? Come to Santiago! Here, you can visit the Cathedral, the City of Culture, stroll in the park next to the old town etc. The Cathedral is the most important monument of the city, and the legend says that the body of the apostle Santiago lies in it. In fact, millions of pilgrims come to Santiago every year. If you want to peregrinate to Santiago, you should wear warm clothes and walking boots because the weather in Galicia is rainy and cold. You also need a backpack with some items like a tent, a torch, a map etc. To get to know Santiago, we strongly recommend one of the guided tours that we offer, where you see some places from a bus, or buy a guidebook that shows you the best monuments to visit in the city and its surroundings.

The best day to visit Santiago is on 25th July (Apóstolo day). On this day, you can see a firework show in the Obradoiro square, next to the cathedral. Regardless of the date, Santiago is one of the best places to visit, come with us and have the best trip of your life!
