

# DECEMBER

## Saint Nicolas

This day is celebrated differently and on different days around Europe.

In Germany they celebrate it on 6<sup>th</sup> December and the children get little presents.

The presents are put in the shoes of the little children the evening before.

In The Netherlands, on the evening of the 5<sup>th</sup> of December they all get presents if they have been nice all year long. If their behavior has been bad, they risk to be put in a bag and being taken away to Spain, as a punishment.
