

Calcula el áreas de las figuras descomponiéndolas en otras más simples.

Cópialas en tu cuaderno. Fíjate en el ejemplo

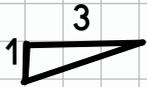

$$7 \times 2 / 2 = 14 / 2 = 7 \text{ cm}^2$$

$$4 \times 4 = 16 \text{ cm}^2$$

$$4 \times 2 / 2 = 4 / 2 = 4 \text{ cm}^2$$

$$3 \times 1 / 2 = 3 / 2 = 1,5 \text{ cm}^2$$

$$3 \times 3 = 9 \text{ cm}^2$$
