

4. Área de figuras planas

Área del cuadrado

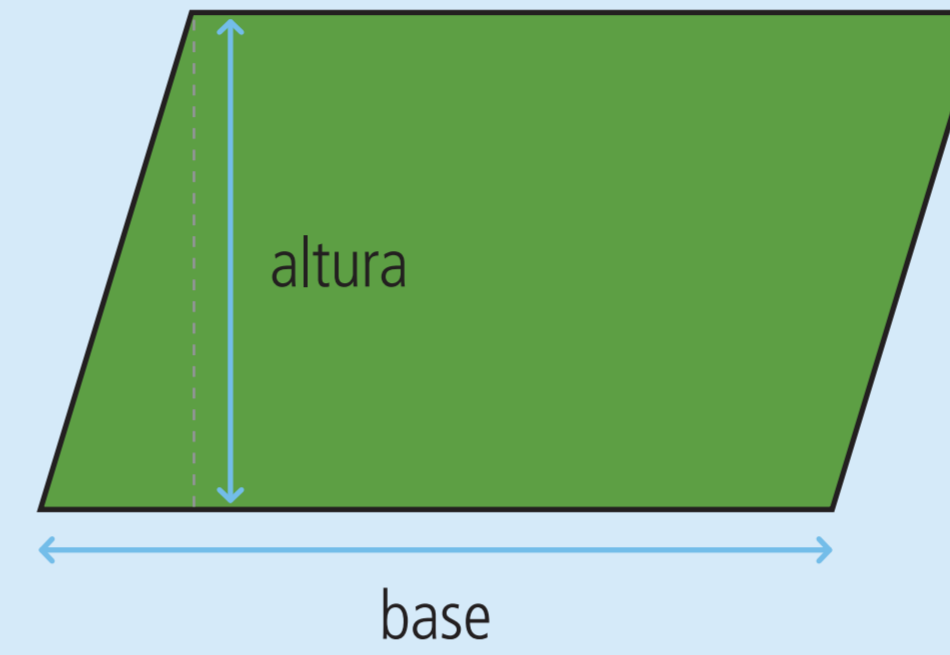

$$A = \text{lado} \times \text{lado}$$

Área del rectángulo

$$A = \text{base} \times \text{altura}$$

Área del romboide

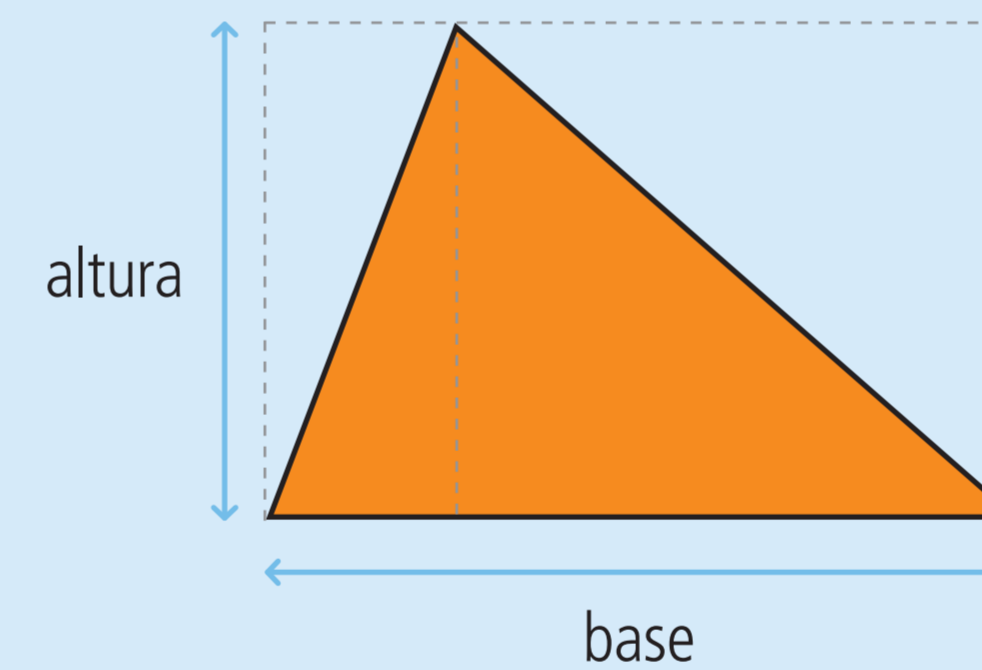

$$A = \text{base} \times \text{altura}$$

Área del rombo

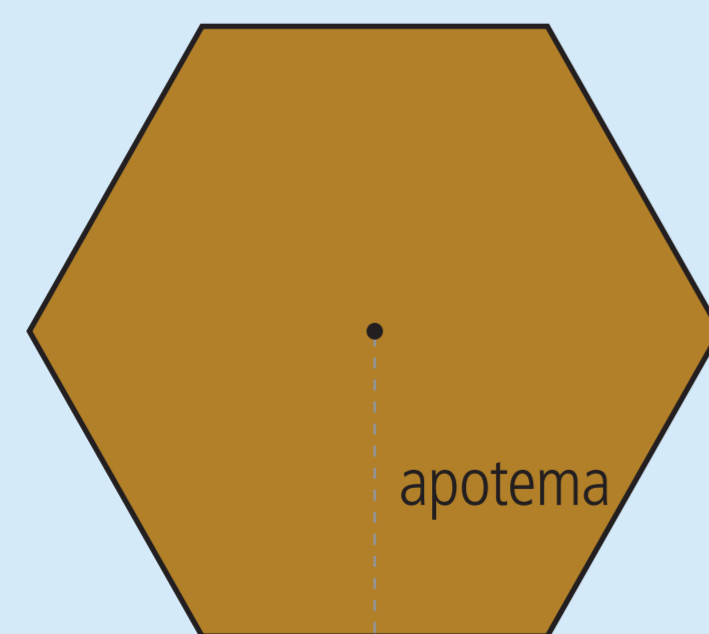

$$A = \frac{\text{diagonal mayor} \times \text{diagonal menor}}{2}$$

Área del triángulo

$$A = \frac{\text{base} \times \text{altura}}{2}$$

Área de un polígono regular

$$A = \frac{\text{perímetro} \times \text{apotema}}{2}$$

Área del círculo

$$A = \pi \times r^2$$
