We went to the Butterfly and Insect Farm yesterday. We had a great time and we saw lots of mini-beasts! Here are our photos!

More than 500 butterflies live there. It's perfect for them. (1) I love butterflies. I think the Swallowtail is the most beautiful butterfly here. You can see the butterfly feeding table in this picture. (2) The butterflies are drinking the juice from the fruit. They love it!

This is the Spider Safari. They've got more than 50 different spiders here including some enormous tarantulas! I don't like spiders very much – I'm a bit scared. They aren't dangerous. (3) They aren't moving – I think they're sleeping. My brother loves spiders and I'm taking lots of photos for him. His favourite is the Goliath bird-eating spider. (4) It isn't eating a bird in the photos – thank goodness!

- a They're all in glass cages.
- b It's the biggest spider in the world.
- c There are lots of their favourite plants and flowers.
- d It's got pieces of apple and orange on it.
